- Approval

# Mandatory Uniform Voting

# Review of School Improvement Plan (SIP) Phase III

95% of our staff strongly agree that our school's use of constructive collaboration, through formal and informal meetings within the grade level and content areas, is an important element within their planning and organizational responsibilities.

According to the Mid-Year Assessments, 63% showed satisfactory progress in ELA and 42% of our students made satisfactory progress in Algebra. Additional data that is most encouraging is the 93% of proficiency obtained in our Biology Topic Assessments and our Tier 3 students scoring 44% in Geometry.

The Performance Matters Data shows a pattern a pattern of 1% differential for all Tiers in Math and for the subgroups of ELL, SWD, and L25. The only significant difference that was observed was that SWD students scored higher in Tier 1 than ELL students. The remaining tiers scored exactly within 1% point of each other.

Addressing and Supporting Learning Loss:

All extended learning opportunities through tutoring will take place weekly on campus. We plan to utilize materials that are aligned to our curriculum, review essential content and knowledge by attending professional developments and strategically analyze Mid-Year and Topic Assessment data to identify missed learning standards.
